Hi Ashley,

Thanks for the updates on the Animal Bioassay and Summary chapters – I am not surprised at the challenges with the Summary chapter!

I wanted to update you on what I/we have been doing on our end.

Back in mid-December, I forwarded the final Epidemiology & Genotoxicity manuscripts from John & Larry to our resident expert report/manuscript preparation person here at Monsanto to put them in the format (including references) specified by *Critical Reviews in Toxicology*. The re-formatting was done and a number of questions came up (mostly on references), which I have sent back to Larry & John to resolve (John says he will be done tomorrow – no surprise).

During re-formatting of Epi & Genetox sections, the question came up about needing an Abstract for each chapter (currently none have Abstracts written). That makes sense for a single stand-alone publication, but I don't know if *CRT* will require an Abstract for each chapter when they publish a multi-chapter stand-alone Supplement? Or could we get by with 1 overall Abstract that goes with either the Introduction chapter or the Summary chapter? Do you have thoughts on that? Should we ask Roger McClellan?

I had already written a draft Introduction chapter back in October/November, but I want to go back and re-read it to see if it could benefit from any 're-freshing' based on things that have transpired over the last 10-12 weeks. I will do that in the next few days. Then I was thinking I would run it by you for your comments/edits. And then comes the question of who should be the ultimate author – you or Gary? I was thinking you for the Introduction chapter and Gary for the Summary chapter, but I am totally open to your suggestions.

That leaves the Exposure chapter from Keith – I am not totally sure where that stands – I vaguely recall that he was still going to make a few changes? I think you and I should talk about how that chapter gets completed, as it is not exactly what I was expecting. Do you have any time Thursday AM? I have a meeting 7:30-8:00 AM and 9:00-10:00 my time, but I could call you before/between/after those meetings. Alternatively, bright & early Friday morning? Let me know what works.

Thanks much,

Bill
