

The Streamlined Somatics Thymatron[®] System Saves Time and Effort

U.S. District Court
Middle District of Florida
PLAINTIFFS EXHIBIT
Exhibit Number: PL. 2
Case Number: 8:20-cv-01724
JEFFREY THELEN v. SOMATICS, LLC
Date Identified:
Date Admitted:

You Need a Thymatron[®] System IV to provide higher stimulus current, deeper cerebral stimulus penetration, and better seizure generalization.

You Need a Thymatron[®] System IV to provide the most effective form of bilateral brief pulse ECT with a 0.5 msec pulsewidth that minimizes side-effects and can be delivered at every stimulus dose including the maximum dose.

You Need a Thymatron[®] System IV for efficient and accurate stimulus titration.
